Voice of Customer

Year	Platform	Customer Voice	Comment
2025	Trustpilot	Missing items, refund denied, complaint closed without resolution. I spend Rs 20000 per year on Swiggy. If this is the standard, I may stop.	Themes: refund denial; high-value customer at risk
2024	Trustpilot/Kimola	Delivery boys were rude. Already deleted Swiggy — now using Zomato.	Themes: rude partner; direct competitor switch
2025	WorthePenny	Out of 4 orders, at least 3 are a worst experience. No way to communicate the issue. Uninstalling the app.	Themes: order quality; app abandonment
2025	Trustpilot	Swiggy isn't a food delivery app anymore — it's a gamble. Will your food arrive late, incomplete, or sampled by the delivery executive? Customer support exists only to apologize.	Themes: delivery quality; support failure
